FIRE SAFETY TIPS:

CLOTHES DRYER SAFETY:

Clothes Dryers can be a fire hazard if proper care and precautions are not taken. Follow these safety tips to prevent fires in your clothes dryer.

- Do not overload the dryer when performing laundry work.
- Clean the lint filter regularly. Check the dryer's information guide for instructions on the frequency to clean the lint filter.
- If there is a fire in the clothes dryer, CALL THE FIRE DEPARTMENT IMMEDIATELY and keep the door to the dryer closed and shut the dryer off.
